R8 Source Control Measures slides.pptx

Thanks, Sandie! The R8 slides are attached. They don't say anything directly about listing, but Martin and David are going to be on the phone and know they might get questions about that.

Thanks again,

s.

Subject: Meeting with NN

Hi Michael and Janet, For the 10 Tribes meeting, our Superfund folks provided information on the work going on in the Upper Animas to Sona Chilingaryan in R9. She should have a few powerpoint slides that cover NPL listing and remedial investigation. This information could be helpful for your discussion with NN this week. So, I wanted to let you know and connect you up in the event you were unaware.

Hope it goes well,

Sandie

Sandie, Bert: By this email I'm connecting you with Sona and Clancy of Region 9's Superfund Program. They are working on an analysis in preparation for the Ten Tribes Partnership meeting on October 14, at which Shaun and Jared will present. The analysis will inform a discussion around overall impacts and opportunities for EPA and tribes to collaborate on water quality protection. Thanks to Region 9 for the collaboration.
